

Betraying The Public Trust

John R. Deahl

One of the aspects of the New World Order (NWO) that really angers me is the public trust that is violated by the large corporations, foundations and our government. I am speaking of how they use TV and other media to sell us on how good they are and then turn around and betray us.

Too harsh you say? Betray is not a strong enough word for these entities. The penalty should be death for what they are doing, because they are causing the death of others. Death in the past, present and future. There are too many bodies to count. Some will never be found.

Some of these companies are the American Association of Retired Persons (AARP). Bank of America, Ford Foundation, Rockefeller Foundation, America Online, DuPont, JP Morgan, AT&T, State Farm Insurance, Wells Fargo and Ronald Mc Donald's Charities just to name a few.

What on earth could these companies have done for such stern words? They have all contributed to MALDEF. The Mexican American Legal Defense Fund (MALDEF).

We are not talking small change; we are talking tens of millions. If it were not for these big donors, MALDEF would close its doors because it is not funded by the people it supposedly supports.

Everyone would have you believe that corporations want cheap labor. That is only one of the reasons. There are other reasons you are not told about by the leaders and media, like the North American Union (NAU). This is the elimination of the borders and merging of Mexico, United States and Canada. Even though United States government and corporate officials are involved the public is not informed. Which is contrary to law.

And believe it or not, to destroy America. Yes, to destroy America. All the bull you hear about diversity makes us stronger is a lie. The NWO knows that no country in history, and they pride themselves in their knowledge of history, has survived a mass influx of another race(s). It destroys the social fabric of the country. A complete breakdown of the country occurs.

Why would they do that? It is a process of social engineering. They want to break us down and then give us the NAU. They have already exported our good paying manufacturing jobs. Now we compete for jobs with illegal aliens. That has kept some jobs wages the same for 10 years.

This is more serious than you think. There have been meetings for the merging of the NAU with the EU and South America for decades.

We are told we need to compete with other countries. Those countries, like China, have slave labor. We would not be competing with them if the

corporations and our own government had not sent our manufacturing over there in the first place.

It is a long term plan to raise the standard of living in third world countries so all the world can one day merge into a One World Government.

It will only be a few years, about 2010, and we will be conned into the NAU on the promise of a magically better economy.

It didn't work out that way for the European Union (EU). Most people in Europe do not want the EU. They know they are ruled by elitists.

MALDEF, the name seems so innocuous, but in reality it is just like all the other NWO organizations that have names that are misleading to their actual purpose. And believe me, there are thousands of these NWO groups.

MALDEF is a racist group that promotes illegal aliens coming into America and it promotes anti-Americanism. The majority of illegal aliens that come to America do not want citizenship. They want to work without being under the pressure of being illegal. They have no loyalty to the United States. Some of them even believe that the US should be given back to Mexico.

These corporations, foundations and government agencies do not want you to know they are contributing to these groups.

On State Farms Insurance website they even tell you they do not give to politically partisan groups. Yet they have contributed to MALDEF.

The AARP website states they do not give to political action committees and is 100% nonpartisan. Yet they too have donated to MALDEF.

The hypocrisy gets worse. The Democrats in the House of Representatives has just passed a bill that will reduce Medicare benefits for American seniors and gives medical, housing and food stamps to illegal aliens.

The Rockefellers have worked with Mexico for decades. They have funded the fostering of that attitude in Mexico. Why else would they be so bold as to protest with Mexican flags in America.

If you did that in Mexico, you would go to jail, and then, if lucky, be deported.

These entities that sell you on how good they are by giving back to the community and then supporting activities that undermine the country is not only fraud and betrayal, but treason.

No one has ever accused me of being racist. I am not even mad at the illegal aliens. They are unwitting pawns like most of Americans. To bad they don't know they are coming to a dying country and trap.

I am furious at the NWO for using everyone as pawns for their own ends of a One World Government.

The American people better wake up and wise up before it is too late!
