

Leaders Are Intentionally Destroying America

How can anyone say there is not an intentional effort to destroy America?

Most of this combined effort happens over time, so it is easy for people that are preoccupied with their daily lives not to notice.

It was just last summer in 2006 that the president put thousands of National Guard troops on the border to help the border patrol agents handle the illegal aliens invading our country.

Today we hear that those same troops will be taken off the border. What?

Let's try to make sense of this. We can do this by standing back and taking a look at the unfolding of past events.

It is interesting to do this because it shows two things. First, how our leaders and the media are used to control the country. Second, the obvious display of no respect they have of we the people.

Individual bills usually move slowly in Washington, but there are so many bills and agency actions it seems to move very fast. It is an illusion of our time.

Keeping that in mind, in the spring of 2006 there was an immigration bill stalled in the senate.

In an event to support the immigration bill President Bush on May 15th, 2006 states in a Whitehouse speech he will put National Guard troops on the border to help the Border Patrol agents.

On May 26th, 2006 the senate immigration bill is passed.

But in June, 2006 it dies in the house of representatives.

In 2007 the senate again tries to pass an even more liberal immigration bill.

In a tremendous effort by the American people, with millions of phone calls and faxes to the senate, the bill is defeated.

In an unprecedented move, president bush requests the senate revive and pass the bill. This is complete disregard of the tremendous outcry and voiced opinion of the American people.

An immigration raid by ICE is televised to again influence the American people in how the administration is trying to enforce our laws.

The democratic senate leaders, in complete opposition to the American people, revives the immigration bill with very minor changes.

Thankfully, despite all of the presidents and democratic leaders efforts, the bill once again goes down in defeat by the massive grassroots effort of the American people.

Since the bills have been defeated, there is no need to try and falsely influence the American people any longer and President Bush is now pulling the National Guard off the border.

If you pay attention and mentally log these events as they happen, you become aware of how devious these leaders are in trying to achieve goals that are not the peoples.

Step by step they tried to influence public opinion and outright lie about the extremely bad immigration bill in an attempt to hoodwink the American people.

I am reminded of the starting point of this current mass corruption. The Federal Reserve Act was passed by congress in the dead of night by only three congressmen when the congress was supposed to closed for holiday.

Just a month or so later both the house and senate are both trying to pass the same liberal immigration bill in smaller pieces. These pieces are less controversial parts of the bill but are still contrary to the American people's wishes.

Some of the small pieces they are passing are free health care for migrant works until age 25 and food stamps. These benefits will further tax the federal budget and put Social Security, Medicare and Medicaid in jeopardy.

This should be clear to everyone that some members of congress and the executive branch are disregarding the American people's will with actions that will destroy America. And I do mean destroy. The American people can not fund this increasing gravy train forever.

Especially since these same leaders have shipped our good paying jobs overseas.

They know full well that no country in history has withstood an invasion of illegal or legal immigrates of this scale.

But why are they not enforcing the current immigration law?

"A person (including a group of persons, business, organization, or local government) commits a federal felony when she or he: assists an illegal alien she/he should reasonably know is illegally in the U.S. or who lacks employment authorization, by transporting, sheltering, or assisting him or her to obtain employment, or encourages that illegal alien to remain in the U.S. by referring him or her to an employer or by acting as employer or agent for an employer in any way, or knowingly assists illegal aliens due to personal convictions."

Federal Law—Section 8 USC 1324.

Don't you think our leaders should be replaced, impeached or otherwise run out of town for their malfeasance of office and outright treason?

Down through our history each president has made blunders they considered detrimental to the country. Most regretted those decisions. Of late, we have leaders deliberately destroying America.

**"If the American people knew what we had done,
they would chase us down the street and lynch us"**

George H.W. Bush

That quote says it all. It implies a very serious secretive deception against America and the American people.

At the current rate it will not be long before America falls. In addition to the governments history of refusal to not stem the tide of illegal aliens, the congress is spending money and raising the deficit like there is no tomorrow.

If America falls, who gains? It surely will not be the American people. It will be the people who feel no responsibility or have any conscience or respect for their country or fellow Americans.

In short, international bankers and international corporations. They do their dirty work from the shadows, behind closed doors, so you can depend on deception. Behind the closed doors of the Council of Foreign Relations (CFR) they control what happens in the government, media and Federal Reserve.

They want the destruction of America. It isn't about illegal aliens or cheaper labor as we have been told so strenuously by the leaders and media. It is not even about eliminating the borders of Mexico, United States and Canada for the North American Union (NAU) for ease of movement of goods.

It is about control. To control and shape the entire world as they see fit in their arrogant egotistical twisted elitist minds. People do not count for anything in their mind or plans.

The American people do not have freedom. We have the illusion of freedom.

If the American people do not act soon, it may be too late to save America.
